Knox District Woodworkers

Knox Woodworkers attended the Stringy Bark festival at Rowville. We had a very successful day running the KIDS Corner. Club members pre-cut and package a variety of very reasonably priced toys including dinosaurs, trucks and baby cradles. Children select their toy of choice and a club member will assist the child to assemble it, using small screwdrivers, drills and other tools. This ensures the children learn how to use tools safely and correctly and everyone enjoys the interaction and the final result.

Packaged toys can also be taken home for assembly or as gifts.

This is a good starting point for new members and sparks an interest in woodworking activities for children.
